

Giclee availability & pricing

Sometimes described as "digital lithographs", giclees are created using extremely sophisticated computer equipment to create a reproduction virtually indistinguishable from the original. The original work is scanned and colour corrected under the supervision of the artist before being printed with an extremely high resolution giclee printer. From the French term for "spray of ink", giclee printers lay down millions of microscopic ink droplets with such precision that the images, colours, and subtle nuances of the original piece are reproduced with breathtaking accuracy and beauty.

All giclees are printed on canvas, stretched and are in editions of 50 or less. Giclee pricing is available based on size. Please see size and pricing chart below. If there is a painting you would like to be made into a giclee, please send me an email and I will let you know if it is available to be made.

Prices do not include shipping or applicable taxes.

Square Paintings	12"x12" \$100.00	16"x16" \$150.00	24"x24" \$250.00
